

# **WE IMAGINE & PLAN PHASE FROM MANY TO ONE PLANNING SHEET**

Innovation Camp

## ***We Imagine and Plan***

*Students lay their plan on how to solve or provide a solution to the problem. They identify as many solutions as they can. In the end, they need to choose the “best” solution according to feasibility, effectivity, and efficiency.”*

Expectations:

The learners should be able to list as many solutions as possible. As they think of solutions, the following general paths for solutions can be of great help:

- *Making or inventing*
- *Information and advocacy campaigns*
- *Call to action through service*
- *Philanthropy*

Then, they choose the “best” solution according to the following criteria:

- *feasibility - Is the solution “do-able” or capable of being accomplished?*
- *effectivity - Is the solution effective enough to address and solve the problem?*
- *efficiency - Is the solution something that can be done with less effort, money, or materials?*

After deciding on the “best” solution, the students start to plan on building or creating their solution.
